DATE: January 09, 2001

TO: Chris Chronis, Chief Financial Officer

FROM: David Miller, Management Analyst

SUBJECT: Report of Monthly Financial Condition for November 2001

Attached is the Monthly Report of Financial Condition for November 2001. The report shows that at the completion of the eleventh month of the fiscal year, Sedgwick County's financial position remains sound. Revenues are within historical parameters, and expenditures are growing at rates consistent with the County's financial plan.

In November, the County saw the first indication of the economic decline that occurred partially as a result of the events on September 11th. The November distribution of Local Retail Sales Tax revenue fell below historical parameters in comparison to both 1999 and 2000. The November distribution includes tax revenues received on sales occurring in the month of October. It is estimated that total Local Retail Sales Tax revenue for 2001 will be approximately 0.5% less than the budgeted amount.

The fund balance for County Sources through November is \$41,743,037 or 21.4% of budgeted expenditures. As a percentage of budgeted expenditures, the fund balance is 0.1% below the projected balance in the financial plan.

Other highlights of the report include:

- ?? Total Revenue for All Funds through November is \$243,771,280, which is 7.4% above 2000's level and represents 98.5% of budgeted revenue;
- ?? <u>Total Expenditures</u> for All Funds through November are \$240,391,564 or 81.9% of the budget, which is 7.0% above last year;
- ?? Month End's <u>Fund Balance</u> for All Funds in November is \$72,756,230 or 24.8% of budge ted expenditures.

If you have questions regarding the information contained in this report, please contact me, Peter Giroux regarding Capital Improvement Program information, or Renfeng Ma, Budget Director.

SEDGWICK COUNTY, KANSAS NOVEMBER 2001 REPORT OF FINANCIAL CONDITION

INTRODUCTION

The Monthly Report on Financial Condition presents information about Sedgwick County's financial condition. Included in the report is information about the total revenue and expenditures managed by Sedgwick County by funding source and expenditure categories. In addition, the schedules following the narrative presents information about each of Sedgwick County's individual funds and provide historical parameters to construct a context in which comparisons between separate fiscal years can be made.

The fiscal information included in this report and the following schedules is summarized into two main categories, "Total Sedgwick County Sources" and "All Funds." Total Sedgwick County Sources presents the financial resources in which local tax dollars and other local sources are utilized to fund public services. The information summarized in All Funds is intended to show all of the resources available to Sedgwick County. This includes Federal, State, and Local Grant Funds; Reserve Funds; and the Auto License fund.

In addition, this report includes information regarding Sedgwick County's Capital Improvement Program (CIP). Schedule 6 provides detailed information about the status of each CIP project, such as current and projected financial commitments.

SECTION I: REVENUES AND COMMITMENTS FOR ALL

Revenues

Figure 1 illustrates that Sedgwick County has collected revenue totaling \$243,771,820 through November for All Funds. This the total combination of tax and non-tax revenue collected by all of the County's programs and services and is \$16,740,088 more than received through November 2000. Moreover, this amount represents 98.5% of total budgeted revenue for the year, which is \$247,538,518.

<u>Schedule 1</u>, which appears following this narrative, provides more detailed information about the amount of revenues collected from taxes and non-tax sources for the year to date.

Tax revenues through November total \$115,930,340, which is \$3,023,008 or 2.7% more than last year.

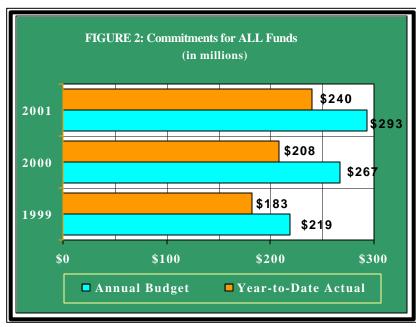

Ad Valorem Taxes for November total \$76,026,143 and represent 100.3% of budgeted revenue from this source. Little revenue is expected from this source for the rest of the year.

Local Retail Sales Tax revenue totals \$20,119,035 or 92.5% of budgeted revenue for this source in November. This amount represents a \$292,671 or 1.5% increase from last year. The November distribution of Local Retail Sales Tax revenue totaled \$1,668,599 for sales occurring in October. This distribution is 12.5% less than the amount received in 2000. The decline of October collections, in comparison to the previous year, is not unexpected due to the immediate economic impact caused by the events of September 11th. It is estimated that total revenue for 2001 will be approximately 0.5% less than the budgeted amount. This is not a cause for concern due to the additional receipts received in other tax revenue classes.

Motor Vehicle Taxes received through November total \$10,121,813 or 94.3 % of this source's budgeted revenue. This amount represents a 15.7% decrease from last year but a 13.3% increase over 1999. As a consequence of the larger than normal distribution in 2000, the decrease in this revenue source from last year is within expectation.

Total **Non-Tax Revenue** collected through November is \$127,840,940, which is an increase of \$13,717,080 or 12.0% from last year's collection. **Schedule 1** illustrates that Intergovernmental Revenue and User Fees contributed to this increase.

Expenditures

Total expenditures for All Funds through November are \$240,391,564 or 81.9% of budgeted expenditures. This amount represents a 7.0%, or \$15,712,456, increase over last year's level. Schedule 1 reflects that, as a percentage of budgeted expenditures, this year's expenditures through November, at 81.9% of the budget, are within historical levels.

The overall increase in expenditures from the

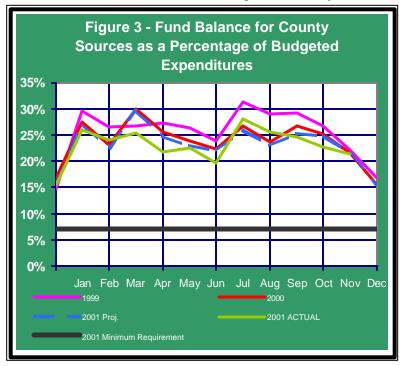

previous fiscal year is caused by increases in several categories. Capital Outlay rose by 21.9%, or \$1,397,446, from last year. Other large increases over last year's expenditures include Personnel expenditures by \$5,558,775 or 6.4%, Contractual expenditures by \$7,371,715 or 8.6%, and Commodity expenditures by \$2,520,593 or 29.6%.

SECTION II: FUND BALANCES

<u>Schedule 2</u> shows the fund balance for All Funds. The ending balance in November of \$72,756,230 represents 24.7% of budgeted expenditures and has declined by 7.6% from October.

Figure 3 displays the fund balance as a percentage of budgeted expenditures for **Sedgwick County Sources**, which includes the General Fund, Special Revenue Funds, and Other Funds. These funds are of particular importance as they demonstrate how local tax dollars are managed and whether or not Sedgwick County is maintaining it's minimum balance requirement pursuant to its financial plan. Through November, the fund balance for Sedgwick County Sources totaled \$41,743,037 or 21.4% of its budgeted expenditures. Consequently, the fund balance satisfies Sedgwick County's minimum balance policy of 7.0% of budgeted expenditures according to the 2001 Financial Plan.

The November fund balance for Sedgwick County Sources did decrease by \$2,657,641 from

and the Special Alcohol/Drug Programs.

October and \$6,254,325 from September. A decline in fund balance during this period of the fiscal year is expected due to the traditional decline Valorem tax collections during the last half of the fiscal year. As indicated in Figure 3, the decrease in the fund balance, as percent of budgeted expenditures, is consistent with historical parameters. addition. the current fund balance. of as a percent budgeted expenditures, is comparable to the 21.5% projected in the 2001 Financial Plan. In November, two funds show a negative balance; they include the Kansas Coliseum

SECTION III: REVENUE HIGHLIGHTS for ALL FUNDS

<u>Schedule 3</u> illustrates revenues for **All Funds**. In contrast to Schedule 2, this schedule only displays revenue received since the beginning of Sedgwick County's fiscal year and does not include fund balances carried over from the previous fiscal year. This information provides a guide to the progress of the revenue collection rate of each fund and provides the first indication of any unexpected drop in revenue.

Revenues collected for **All Funds** through November total \$243,771,280 or 98.5% of the total budgeted amount of \$247,538,518. Current revenues are \$16,740,088 more than last year and \$39,479,535 more than received in 1999. These increases over the past two years are primarily a result of additional revenue received in the General Fund, Special Revenue Funds, and Grant Funds.

General Fund

General Fund revenues to date are \$114,464,683, which is \$8,108,567 more than last year and \$18,932,572 more than 1999. As a percentage of the budget, General Fund revenues through November are within historical levels. The total amount represents 97.5% of budgeted General Fund revenues, versus 95.1% in 2000 and 97.8% in 1999.

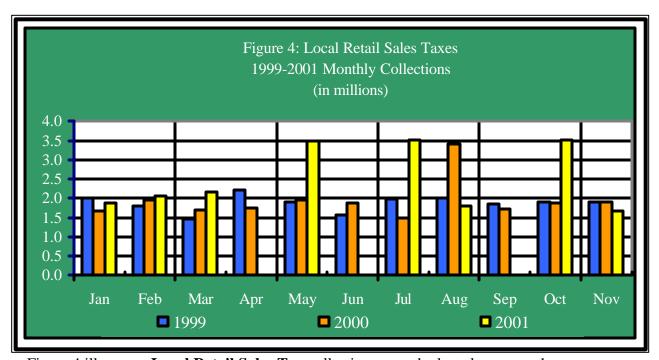

Figure 4 illustrates **Local Retail Sales Tax** collections over the last eleven months.

Special Revenue Funds

The total amount collected by Sedgwick County's fourteen **Special Revenue Funds** totals \$42,095,667 or 101.5% of budgeted revenue for these funds. This amount is 6.5% more than received last year and 25.8% more than 1999.

It is important to note that for 2001 there are several changes in the funds that are being reported. In previous years, there was a special revenue fund for employee benefits, which was closed during 2000 and is not reported this year. Similarly, the fund for the Court Trustee's office is no longer reported here. However, Risk Management is a new addition to this fund category, reflecting a change in how this department is managed.

Public Works – **Highways** received total revenue of \$11,445,531 through November, representing 104.9% of their budget. The pace of this revenue collection conforms to historical patterns.

COMCARE collected \$6,220,606 in taxes, patient fees, and third party payments (e.g., Medicare fees) through November. This amount represents 105.5% of their budgeted revenue and is \$467,065 less than collected last year. This decline in revenue receipts is not expected to challenge the services provided by COMCARE as a result of the increase in grant revenues that has occurred in 2001.

Emergency Medical Services collected \$9,759,263 through November from taxes, patient fees, and payments from third parties. This amount represents 98.8% of budgeted revenues and is 21.8% more than collected last year.

Grant Funds

COMCARE's grant funded programs collected \$1,837,773 during November. The year-to-date total is now \$21,290,624. This amount is \$8,520,219 or 66.7% more than the amount received at the end of November 2000.

Aging Services grant funded programs collected \$4,578,070 through November, which is 138.3% of their budgeted revenue and \$617,856 more than received in November of last year. The fast collection of this revenue is due to advanced transfers from the federal and state government as prepayment for services. Of this amount, over eighty percent is from Intergovernmental Revenues from the federal and state government for services such as care assessments. The remaining part (over 10.0%) is from User Fees associated with transportation services.

Department of Corrections' grant funded program received \$10,865,608 or 156.4% of its budgeted revenue through November. Approximately 98.0% of this revenue results from Intergovernmental Revenue from the state. The remainder is from user fees for electronic monitoring devices, commissions from pay telephones, and refunds.

Other Grants collected through November total of \$2,671,613, which is 79.3% of its budgeted revenue. These funds are from Intergovernmental Revenue, including state and federal funding.

Reserve Funds

Receipts into Sedgwick County's reserve funds through November total \$24,685,853 or 83.5% of budgeted revenue. This amount includes \$14,218,744 for the Health and Dental Fund and \$8,777,872 for the Local Sales Tax Funded Road & Bridge Fund. Receipts into the Local Sales Tax Funded Road & Bridge Fund through October are at 67.4% of budgeted revenue. As demonstrated in the past fiscal years, receipts as a percentage of the budget are traditionally low in this fund as a result of the delay in the receipt of Local Sales Tax disbursements. Total year-to-date receipts into the Workers Compensation Fund are considerably lower than previous years as a result of delays in internal transactions. These delays are not a cause for concern.

SECTION IV: EXPENDITURE HIGHLIGHTS & PROJECTIONS

As shown in <u>Schedule 4</u>, total commitments for All Funds through November are \$240,391,564, which is \$15,712,456 or 7.0% more than last year's expenditures. This increase is consistent with the County's previous expenditure patterns. For the General Fund, commitments increased by 4.0% from last year while commitments for Total County Sources rose by 1.6%.

<u>Schedule 4A</u> provides further details into the expenditure level of Sedgwick County departments that are part of the **General Fund**. The schedule also shows a total level of expenditures projected through year-end for All Funds, based on historical data and current knowledge of each funds' activity for the current year. The right-hand column, Projected Over/Under () Budget at Year-End, is designed to show whether each fund will meet or exceed its 2001 budget.

Schedule 4A shows that expenditures for **All Funds** are expected to be under budget by \$17,497,129 at year-end, which includes the **General Fund** ending the year \$11,200,207 under budget. These balances are likely to fluctuate as spending patterns among the operating departments are likely to change, causing their year-end projection to change as well.

Schedule 4A also demonstrates that **Special Revenue Funds** are projected to be \$2,219,936 under budget, **Grant Funds** are projected to expend all budgeted resources, and **Reserve Funds** are projected to be \$3,176,507 below budget at the end of the year.

SECTION V: CAPITAL IMPROVEMENT PROGRAM (CIP)

Schedule 6 lists funded Capital Improvement Program (CIP) Facility Projects as well as Roads, Intersections, Bridges and Drainage by year. It provides an overall view of the CIP, as well as individual project spending. It is prepared from multiple sources, including reports from both Facility Project Services and Public Works. As a crosscheck, those reports are also compared to original budget documents and individual project funds. Column 3 shows the original amount approved in the CIP Budget. Column 4 reflects changes to the originally approved CIP budget.

Column 5 reports expenditures to date. Column 7, Estimated Cost, reflects the project budget unless, in staff judgment, a firm number for the final project total is available. In Column 8, Under/Over Budget, a negative number typically indicates that, in staff judgment, the project should be completed with less funding than budgeted. Remarks present progress as of the date shown in the title. Completed projects will normally only appear in this report once.

Only one **1998** facility project is now active. Approximately \$600,000 is available to fund the Upgrade of the JDF HVAC, which replaces four air conditioning units in this twenty-seven year old system. Completion is anticipated in February.

Remaining open facility CIP projects in the approved **1999** CIP were authorized at \$3.7 million. Other open projects added \$4.2 million to the CIP. Of the total \$7.9 million, about \$6.9 million has now been spent, principally on two projects. The first, the Adult Residential project, located on East Central, is now operational. Final details as well as demolition on a final piece of the surrounding property to provide parking are under way. The second, construction of the Fleet Management Shop Facility (\$4.6 million) is making good progress toward a projected early March completion.

The **2000** facility program has about \$1.6 million in funds remaining from an amended total of \$1.9 million. Most of those funds (\$1.1 million) are associated with the WPA building renovation. Design of this building renovation, has been initiated consistent with the progress noted above on the Fleet Management building, which will house current WPA occupants. Only one 2000 (RIBS) project, R246 Maize Road from the Wichita City Line to 45th St North remains to be finished. It is now 99% complete.

For **2001**, the active facility projects total \$4.9 million dollars of which about \$3.0 million has been spent. The \$26.0 million total in active Public Works projects is progressing nicely. Of that total, \$21.3 million of project funding is committed. Three bond-funded projects are now complete as are three road and bridge sales tax funded projects. Projections of supporting sales tax receipts dedicated to road and bridges indicate these funds will meet or slightly exceed estimated receipts of \$9,278,104. Using an average receipt projection, sales tax receipts in support of road and bridge project (which represent one half of the local one per cent sales tax receipts) are estimated to total \$9,376,454 or \$98,350 over the original budget projection.
